WEEKLY REPORT and MEETING AGENDA

Report #: 5   Project Name:Smart Curtain   Date: 3/21/2022
Prepared by:Pierre Vu, Arthur Chen, David Erdner, James Streets, Caleb Key

Agenda for the weekly meeting

1. Each of the member explains what they have done since the last meeting
2. Plans for next work week are discussed
3. Assigning tasks for implementing the App for GUI

Accomplishments during this period

1. Hardwares are tested to work functionally
2. Group members have reviewed how to use basic Arduino code to input and output sensor data.
3. Basic GUI creation testing
4. Android device acquired and ready to test android app once development starts

Plans for next period

1. Continue Android app development
2. Still need to test if the bluetooth connection can work properly.
3. The goal before the CDR is to have the system working autonomously with some degree of functionality with basic GUI interaction.
4. Implement starter code into system

Project management status

1. Slightly behind on hardware due to shipping delays
2. Team is keeping to commitments and meeting times
3. Preparing for CDR reviews next week

Minutes from previous meeting

1. Each of the member explains what they have done since the last meeting
2. Plans for next work week are discussed
3. What work will look like through spring break
